

Special Issue

Developing Sustainable Project Management: Challenges and Opportunities

Message from the Guest Editors

The purpose of this Special Issue is to increase our knowledge of sustainable project management with the aim of highlighting the most promising paths and fostering a systematic development in the field. We are interested in original research articles and reviews that are related, but not limited, to the following topics:

- Strategic project management for sustainability;
- Project portfolio selection for sustainability;
- Sustainable project manager;
- Balancing economic, social and environmental objectives in project management;
- Stakeholders management and participation for sustainability;
- Sustainable value generation in projects, and value-based approaches to project management;
- Sustainable project products design and development;
- Sustainable project performance management and value measurement;
- Risk management to support sustainable value generation in projects;
- Knowledge management in projects for sustainability;
- Organizational perspective of sustainable project management.

Guest Editors

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA
