New Business Models and Entrepreneurship for Sustainable Development

Message from the Guest Editors

New systemic solutions are needed in order to deal with the complex societal challenges of our time, both globally and locally, as well as to tackle technological, economic, environmental problems. In this sense, the social and organizational levels of sustainability are very relevant for the sustainable development of a global society; however, the scientific knowledge on the transformative process, which leads to entirely new business models for sustainability, as opposed to philanthropy or corporate social responsibility, is rather limited in the sustainability management research (Schaltegger, Hansen, und Lüdeke-Freund, 2016). The dominant paradigms of economic organization in both corporate and small and medium-sized enterprise (SME) contexts have not caught up with the sustainable development era, but seem instead to be stalled in the Fordist, 20th century era (Biloslavo, Bagnoli, und Edgar, 2018; Perlik, 2021). Therefore, new models, frameworks, approaches and philosophies are needed for modern sustainable economy and management.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
