Special Issue

Tourism Management and Sustainable Development: Transformations, Challenges and Opportunities in a Changing World

Message from the Guest Editors

The relationship between tourism and sustainability has been widely explored by researchers as the discourse of sustainability has been gaining relevance in society, in its way of both thinking and acting. At the same time, it is increasingly becoming a factor to be considered in the areas of tourism management and development. However, its practical application is far from what is both desired and necessary. The disruption caused by COVID-19 has been involved in changing this situation by acting as a catalyst for re-thinking and redefining the relationship between tourism development and sustainability. This is leading to new practices and radical changes based on a paradigm shift of tourism towards sustainability and local interests. Above all, this pandemic context offers an opportunity, which is simultaneously a challenge, to speed up the change towards a more sustainable and resilient tourism. development model that should remain active and consolidate practices in the post-pandemic period.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
