Special Issue

Green Economy, Ecosystems and Climate Change

Message from the Guest Editor

This Special Issue of *Sustainability* will be devoted to cutting-edge research addressing the issues of smart and sustainable cities management in the context of UN New Urban Agenda. The papers addressing the following topics will be considered: sustainable development indicators, performance assessments, planning approaches, climate change mitigation and adaptation, decarbonization, sustainable transport, food security, digitization and the environment, proenvironmental behaviour, green infrastructure, urban air pollution, health, and the covid-19 pandemic. Particular emphasis will be given to empirical studies with a clear policy focus. Articles are invited from a broad range of regions from all across the world, including Africa, North and South America, Oceania, Asia, and Europe.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA
