

Special Issue

Sustainability Challenges across Industries, Services and Markets

Message from the Guest Editors

Sustainability will be one of the biggest business challenges in the future. Significant changes have occurred in the competition at diverse industrial sectors, services, and markets (e.g., textile, chemical, food and beverage, technology industries, etc.). Business to business (B2B) companies will become increasingly more aware of the power of sustainability, and how to do business sustainably, which will also occupy a key position in the minds of consumers. This Special Issue invites the submissions (both original and review articles) on the following topics:

- Firms able to encourage sustainable business and consumption, designing and implementing business processes and practices sustainably and redefining business models;
- Interventions and policies to promote a sustainable business and to develop circular economy capabilities as drivers for long-lasting competitiveness;
- Environmental improvements in businesses to encourage companies to think and act toward reducing the negative effects from ill environmental performance;
- Research on good sustainability practices and/or about of sustainability problems and challenges across industries, services, and markets.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada
