

Special Issue

Sustainability in Public Administrations: Evaluation of Performance and Financial Analysis

Message from the Guest Editors

This Special Issue aims at contributing with new insights regarding the performance and corporate governance of the public sector to reach sustainability in public administrations (state and local governments, universities, hospitals, nationalized entities, etc. in developing and developed countries).

Although theoretical papers are also welcome for this Special Issue, preference will be given to empirical and comparative analyses. We expect new practical insights for the stakeholders involved in the implementation of sustainable public administrations of entities.

- Performance of public administrations
- Financial risk in local governments
- Default risk in public sector
- Sustainable local decision-making
- Sustainable development goals (SDG)

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits
