

## Special Issue

# Sustainability in Public Administrations: Evaluation of Performance and Financial Analysis

### Message from the Guest Editors

This Special Issue aims at contributing with new insights regarding the performance and corporate governance of the public sector to reach sustainability in public administrations (state and local governments, universities, hospitals, nationalized entities, etc. in developing and developed countries).

Although theoretical papers are also welcome for this Special Issue, preference will be given to empirical and comparative analyses. We expect new practical insights for the stakeholders involved in the implementation of sustainable public administrations of entities.

- Performance of public administrations
- Financial risk in local governments
- Default risk in public sector
- Sustainable local decision-making
- Sustainable development goals (SDG)

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
