

Special Issue

Sustainability and Standardization

Message from the Guest Editor

The purpose of this Special Issue is to shed light on the potential contributions of standardization to sustainability issues. Therefore, we invite original contributions that offer theoretical insights, deploy empirical data analysis (qualitative or quantitative), discuss case studies or use other suitable methods to shed light on the problem. The scope of the Special Issue includes (but is not limited to) the following topics:

- standardization of sustainability dimensions;
- contribution of standardization to SDGs;
- standards and SDGs;
- interrelation between standards and public policies to achieve SDGs;
- standardization in the interaction between digitalization, incl. artificial intelligence, and sustainability;
- the role of big data and new data sources, like social media, for research on standardization and sustainability.
