Special Issue

Strategic Development for Sustainable and Competitive Tourism Destination

Message from the Guest Editor

We are at a key moment in rethinking the planning and management of tourist activity in destinations, from the perspective of sustainability and competitiveness, in order to guarantee the maximization of the positive impacts of tourism, as well as minimize, or even eliminate if possible, negative impacts and adapt destinations to the new reality generated by COVID-19 and to the new demands of future tourists. The aim of this Special Issue is to generate knowledge regarding the challenges that tourist destinations will face in the immediate future to guarantee their sustainability and competitiveness, as well as to identify and define new methodologies and tools that increase efficiency and stakeholders' effectiveness, fostering the development of a comprehensive and holistic vision that promotes innovation, to overcome paradigms and barriers to the development of tourism.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
