Sustainable Buildings and Energy Performance

Message from the Collection Editors

The current global energy scenario shows that the building sector is one of the main responsible sector for energy consumption, accounting for 40% of the total [1] and 30% of greenhouse gas emissions, which have more than doubled since 1970 [2]. This scenario. together with the growing global warming, requires more and more efforts to find innovative solutions which are able to reduce the energy demands of new and existing buildings, maximizing the efficiency of technological systems and ensuring high comfort levels. Thus, in this context, the energy efficiency concept blends with the issue of the comfort of built environments, highlighting a deep relationship between technological solutions and human being. Therefore, this Special Issue on "Sustainable Buildings and Energy Performance" has a wide-ranging goal. It aims to collect scientific papers dealing with innovative solutions for the building sector, taking into account several levels of knowledge, Dr. Tullio de Rubeis Dr. Luca Evangelisti

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
