

Special Issue

Sustainable Design Education and Implementation

Message from the Guest Editors

This Special Issue recognizes that there is an ongoing discourse regarding the need for changes in design education. The need to explore and enact these changes is further amplified by the fact that the contexts in which designers are working, are becoming increasingly complex. This is reflected both in the roles that designers are moving into, which are more diverse, as well as the immense challenges that design aims to address (poverty, inequality, climate change, environmental degradation, peace and justice). This Special Issue invites exploration of radical approaches to Sustainable Design Education and Implementation in Higher Education from multiple perspectives, focusing on what designers learn, how they learn and where they learn. We invite contributions which provide commentary on novel, visionary and progressive sustainable design pedagogies, and the implications they have on formal education systems.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
