

Special Issue

Towards a Sustainable Development for Insular Communities, through Their Transition to Renewable Energy Sources and Rational Use of Energy

Message from the Guest Editor

Dear Colleagues: This Special Issue focuses on advancements and innovations on Renewable Energy Sources (RES) and Rational Use of Energy (RUE) for insular territories, aiming to ensure high and secure renewable energy sources penetration in local energy systems, with the ultimate objective of their contribution to the sustainable development of local insular communities. The Special Issue aims to cover topics on:

- The technical field, examining different technologies and systems towards high RES penetration;
- The social, economic, environmental, and political field, focusing on sustainable development of local communities.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
