

## Special Issue

# The Factor Time in Research on Sustainable Employability? Results of Theory-Based Organizational Research

### Message from the Guest Editors

Sustainable employability is a well-studied topic in the literature. In this Special Issue, we call for new:

- Theoretical perspectives that shed new light on the time factor or time perspective in relation to sustainable employability of workers in different sectors and organizations;
- Longitudinal research that tests relevant theory-based hypotheses on relations between time or the time perspective and micro-, meso- or macro-level antecedents of sustainable employability of workers in different sectors and organizations;
- Methodological papers discussing different methodologies (longitudinal survey research, narratives, experimental research, case studies etc.) to investigate the time factor or time perspective in relation to sustainable employability of workers;
- Empirical research that introduces new measures for operationalizing the time factor or time perspective in research on antecedents of sustainable employability of workers;
- Intervention research in which time is manipulated to influence antecedents of sustainable employability of workers.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
