

Special Issue

Sustainable Environments: Issues, Processes, and Solutions

Message from the Guest Editor

This Special Issue is sustainable futures-focused, being especially geared towards exploring the sustainable management of the environment and its resources. We welcome holistic and integrated scientific research approaches that investigate and explore sustainable solutions to environmental issues (from exploring the issues/problems, to methods/approaches to addressing the issue/s, to solutions that are sustainable). We are especially seeking sustainable and innovative solutions that will hopefully hold the key to maintaining viable ecosystems and communities into the future, ensuring productive and viable food production whilst also valuing the environment, communities, societies, and future generations, in line with the UN Sustainable Development Goals.

- Sustainable management
- Environmental resource management strategies
- Integrated strategies and policies
- Remediation approaches and solutions focused
- Impacts of climate mitigation and adaptation
- Sustainable remediation strategies
- Environmental sustainability
- Pedagogical approaches to sustainability

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
