

Special Issue

Sustainable Environmental Beliefs

Message from the Guest Editors

This Special Issue aims to present scientific contributions that address the recent empirical analysis of environmental beliefs and their relationship to sustainability.

Therefore, we invite research papers elaborated from the following perspectives: (1) The structure of environmental beliefs and worldviews that promote the transition towards sustainability by advancing the theory that supports it.

(2) The analysis of beliefs about specific aspects or dimensions of sustainability, particularly those referring to phenomena associated with global ecological change.

(3) The cultural differences and gender perspectives in sustainable environmental beliefs, considered from the perspective diversity and social change.

(4) The influence of environmental belief systems on sustainable behaviors. It is of particular interest that this analysis be focused on practices and contexts that cause a relevant ecological impact, such as certain specific domains of consumption, urban environments, or work organizations.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
