

# Special Issue

## Sustainable Food Processing

### Message from the Guest Editors

The Special Issue titled “Sustainable Food Processing” focuses on reviews, regular research papers, communications, and short notes regarding all aspects of sustainable food processing, from production to food service. Sustainable techniques and processes, sustainable packaging, life cycle of products, food waste valorization, reducing waste (water, solid waste, gases), energy efficiency, renewable energy sources, sustainability of food distribution, and policies and laws regarding sustainable food processing are all examples of topics that may be included in this Special Issue; however, papers on other aspects of sustainable food processing are also welcome.

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
