Special Issue

Sustainable Food Systems and Circular Bioeconomy

Message from the Guest Editor

As the food system encompasses multiple Sustainable Development Goals (SDG), such threats and challenges need to be approached in a transversal way. In this respect, the Mediterranean diet, which goes beyond the food pattern that inspired newly developed diets (nordic. flexitarian), also encompasses other inspirational dimensions of sustainability, as nature-respectful landscapes, ways of optimizing water management, and cultural and social values that influence behaviors. In improving processes and changing attitudes, the environmental impact of foods must be assessed by adequate and widely adopted metrics that can be clearly communicated and aligned with consumer preferences. This Special Issue will publish contributions about advancements in the sustainability of food systems and the circular bioeconomy and related key topics of high impact.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G OC5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
