

## Special Issue

# Towards More Sustainable Labour Markets: Concepts, Developments, Policies and Impact Evaluations

### Message from the Guest Editors

The purpose of this Special Issue consists in a) exploring and better understanding the factors leading to labour market sustainability and the effectiveness of the current public policies worldwide upon labour market, as well as b) in finding conceptual, methodological and empirical solutions in designing and assessing the effects of public policies on the labour market. Thematically, this Special Issue includes topics like: labour market governance, legislation and policies for sustainability, labour market integration of vulnerable groups, quality of employment, local labour markets and regional development, skills development and utilization of human capital to support socio-economic sustainability, aging population and demographic issues, corporate sustainability and fiscal policy implications, urbanization and labour market implications, as well as contributions to SDGs 2030.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
