

## Special Issue

# Identification and Assessment of Landscape Change and Landscape Services for Sustainable Landscape Planning and Management

### Message from the Guest Editors

This Special Issue is focused on multidisciplinary approaches and methods of landscape change and landscape services analysis as well as social participation in landscape studies that can be used for sustainable landscape planning and management. Relevant topics include but are not limited to both theoretical papers and case studies. Papers should provide the best examples of landscape change analysis and its driving forces as well as identification, mapping, and valuation of landscape services or ecosystem services in landscape perspective. Papers related to landscape sensitivity and capacity as well as landscape history and cultural heritage transformations are also invited. Research including social participation in landscape analysis and landscape protection are consistent with the theme of the Special Issue.

### Guest Editors

Dr. Piotr Krajewski

Associate Professor, Institute of Spatial Management, Wrocław University of Environmental and Life Sciences, 50-375 Wrocław, Poland

Dr. Iga Solecka

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

---
