

Special Issue

Sustainable Product Design and Development

Message from the Guest Editors

Special Issue aims at advancing our understanding of how sustainability becomes an intrinsic part of companies' product design and development activities, on both strategic and operational levels. Topics of interest include, but are not limited to: product design and development for circular business models, sustainable product design and development in small and medium-sized enterprises (SMEs), integration of sustainability with lean or agile product development, sustainability in early product design and development, industrial experiences from implementing product design and development, impacts of digitalization and electrification on sustainable product design and development, design for sustainable behavior, and teaching in sustainable product design and development.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
