

Special Issue

Studies on Sustainable Rehabilitation of the Built Environment

Message from the Guest Editors

This Special Issue aims to provide the reader with in-depth knowledge of the evaluation of the built environment for sustainable rehabilitation, considering comprehensive coverage of up-to-date key topics and a scenario in progress. The Special Issue bridges trans-disciplinary language across the built environment, bringing together the diversity of circumstances, interests, design style, techniques, etc., finding an integrating mechanism to quicken the decision-making process in building sustainable rehabilitation. The Special Issue is targeted at students, academics, researchers, practitioners and all people engaged in renovation of buildings and built environment, risk and sustainability evaluations, research bodies, construction companies, governmental agencies and private research consultancies. Topics include hazard risk mitigation, sustainable infrastructure, design and maintenance, durability of building materials and structures, vulnerability, seismic survey and HBIM-based structural analysis, modeling, simulation and optimization, sustainable urban development, energy efficiency, smart cities, conservation, rehabilitation and conservation of cultural heritage.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
