

Special Issue

Sustainable Safety of Construction Sites

Message from the Guest Editors

We are pleased to confirm that the submission portal is now open for an upcoming Special Issue on “Sustainable Safety of Construction Sites”, to be published in *Sustainability*. Due to the nature of works done on construction sites, there are always risks and hazards that need to be managed in order to keep the sites safe for construction workers. Since the construction industry has been badly affected by COVID-19, strategies to sustainably maintain the safety of construction sites are emerging. Advanced technologies, together with traditional protections, are used on construction sites for safety purposes, aligning with the dynamic situation of COVID-19. In this context, the aim of this Special Issue of *Sustainability* titled “Sustainable Safety of Construction Sites” is to inspire scholars to continue conducting research on sustainable construction safety management in “the new normal”.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
