Special Issue

Sustainable Urban Regeneration: Issues and Challenges for Buildings and Cities

Message from the Guest Editor

The scope of this Special Issue in *Sustainability* is twofold: on the one side, it aims to provide a systematic review of practices and models in the current background of building design and urban planning; on the other side, it is intended to illustrate, discuss, and detect the major challenges in the adoption of sustainable practices and community-based models in the urban regeneration of our cities. An inter-scalar, multidisciplinary approach is welcome, as buildings and open spaces have to be considered as a whole when it comes to urban sustainable regeneration.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
