

# Special Issue

## Sustainable Water–Energy–Food Nexus

### Message from the Guest Editor

This Special Issue seeks contributions focusing on the water–energy–food nexus along with the nexus contribution to resilience and sustainability of resources. While still in its first decade, the nexus concept has gathered significant momentum despite the lack of a clear unifying definition and a comprehensive mathematical model to conceptualize it. I envision this Special Issue to comprise a selection of papers focusing on five main nexus directions which I hope can form a roadmap to be followed in nexus research in the future:

- Development of nexus modeling frameworks
- Establishment of comprehensive nexus case-studies
- Nexus impact and connections
- Nexus scale and scaling issues
- Nexus education

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
