

Topical Collection

Industrial Symbiosis

Message from the Collection Editors

This Topical Collection aims to collect original contributions, subject to a rigorous peer review, concerning the main advancements and innovations in the development of industrial symbiosis networks, considering different levels of analysis, including the processes and respective supporting technologies, relationships among network stakeholders, supply chain and logistics concerns, and managerial and political issues. The potential benefits that industrial symbiosis can bring are diverse and wide ranging. Therefore, contributions from different research areas are welcome. Researchers are encouraged to submit contributions that touch on several aspects of industrial symbiosis and its relationship with several contiguous topics. For more details, please visit:

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
