

Special Issue

Total Quality Management and Sustainability: Digital Quality Management and Quality Ecosystem

Message from the Guest Editors

This Special Issue aims to collect high-quality papers covering various aspects of total quality management and sustainability, including but not limited to the roles of data-driven TQM methods in sustainable business excellence, identifications of digital TQM dimensions in sustainable organizations, business TQM practice and environmental, social and governance (ESG) performance, information technologies usage and TQM innovations for business sustainability, strategies of digital quality management decisions, and sustainable quality ecosystem design. We welcome original papers related to these and other aspects of TQM and sustainability, without any limitations in terms of research methodologies. **Keywords:** total quality management; sustainable organizations; data-driven quality and sustainable decisions; business sustainability and ESG performance; digital quality management; quality ecosystem; QEODS implementations

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada
