

Special Issue

Building Back Better Tourism in Times of Pandemics and Climate Change for the Sustainable Development Goals

Message from the Guest Editors

The scope of the present Special Issue is to provide a suite of solutions to address the trade-offs between the socio-economic benefits tied to tourism systems, and their impacts on climate and ecosystems. This Special Issue also aims to analyze local development policies and business strategies to support sustainable tourism, giving a voice to both businesses and local authorities. Research dealing the issue of sustainability in the tourism development of territories, tourism business management, tourism market analysis, and traveler behavior is also welcome. Contributions of original, cutting-edge, multidiscipline research, showcasing either the methodology development or findings of environmental assessments, or feasibility studies in support of transformative changes are expected.

Guest Editors

Prof. Dr. Camillo De Camillis

Faculty of Economics, Università degli Studi Internazionali di Roma - UNINT, Roma, Italy

Dr. Anna Mazzi

Department of Industrial Engineering, University of Padova, Padova, Italy

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada
