# **Special Issue**

# Tourism, Smart Specialization and Sustainable Development

### Message from the Guest Editor

This special issue addresses the role of tourism within strategies of smart specialization and its implications on the sustainable development of destinations, regions and/or countries. The concept of smart specialization inspired the formulation of regional innovation policies currently implemented in regions of the European Union (2014-2020), emphasizing the importance of endogenous resources and existing capabilities in each territory. This approach aims at exploring the regional variety of each economy in order to develop intersectorial relations, potentially generating spillover effects of innovation processes. Thus, the concept of smart specialization may be applied in other geographical contexts, not being limited to the European area. As an activity that mobilizes contributions from different economic sectors, tourism may play a central role in smart specialization strategies, by exploring those sectorial interconnections and potential innovative approaches to the utilization of local resources.

## **About the Journal**

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

#### **Author Benefits**

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
