Special Issue

Mainstreaming Recommendations to Future Sustainable Urban Planning in Developing and Emerging Economies

Message from the Guest Editors

Cities play a central role in facing the big challenges of our time, such as climate change, resilience, and the need for more livable urban spaces. With the areas occupied by cities growing faster than their populations, there are profound repercussions for sustainability. We invite interdisciplinary experts focusing on planning at the urban scale. We on, but is not limited to, the following topics:

- Accessibility: access for all to adequate, safe, and affordable basic services and transport systems.
- Energy transition: integrated energy system analyses; innovations to improve air quality; circular economy.
- Data management and smart cities: smart cities and digitalization challenges; big data; machine learning and AI applications; case studies.
- Assessment and evaluation techniques: financial analysis, costs-benefits analysis; multi-criteria analysis (MCA); spatial decision support systems (MC-SDSS); operations research; decision processes.
- Policy framework: adopting and implementing integrated policies and plans towards resource efficiency; environmental regulatory support.

Guest Editors

Dr. Chiara Delmastro

Department of Energy (DENERG), Polytechnic University of Turin (PoliTo), Turin, Italy

Dr. Sara Torabi Moghadam

Interuniversity Department of Regional and Urban Studies and Planning (DIST), Politecnico di Torino, Torino, Italy

Deadline for manuscript submissions

closed (31 December 2022)

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
