

Special Issue

Cities and Retail: Sustainable Transformation of Retail in Urban Environments

Message from the Guest Editor

We invite authors to submit research that focuses on the transformation of urban retail. This Special Issue is particularly framed on the dialectic retail change vs. urban policies, a subject in which contributions will be of great significance to the scientific literature. Supported by this conceptual framework, we invite studies on topics including, among others, retail change, new forms of governance of shopping districts, retail gentrification (city centers, traditional retail markets, and other retail formats), and retail in tourist cities.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
