Urban Sprawl and Energy Efficiency: The Relevance of Urban Form in the Environmental Sustainability of Cities

Message from the Guest Editors

This Special Issue, entitled “*Urban Sprawl and Energy Efficiency: The Relevance of Urban Form in the Environmental Sustainability of Cities*”, proposes to bring together the authors who have made some of the most relevant recent contributions in this field to summarize their contributions and include new analyses. In this way, it is expected that the Special Issue will be a must-read for all researchers working in this field and a key reference point in future and growing research on the role of cities in climate change, smart urban planning, and sustainable growth of cities.
