Special Issue

Urban Sustainability Futures

Message from the Guest Editor

The purpose of this Special Issue in the journal of *Sustainability* (ISSN 2071-1050) is to consider future 'utopias' for cities based on human impacts on the urban environment. Authors are asked to envision the optimal future relating to their areas of (urban) expertise and relate these to long-term (future) temporality. They are asked to contemplate the question: What would you change in the city if it helped to achieve sustainability? A wide range of topics can be encapsulated in this approach within the auspice of an integrated (environmental) sustainability. Other spatial scales can also be accommodated here based on multiscalar and integrated approaches; and cross-temporal approaches are also well-suited to this Special Issue.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
