Using Applied Statistics and Multivariate Data Analysis in the Challenge to Solve Current Real-World Problems

Message from the Guest Editors

Applied statistics faces the challenge of solving real-world problems with statistical and mathematical tools and statistical thinking. Contributions around the following themes are particularly welcomed: Application of multivariate statistical methods to solve real problems;
Sequential problem-solving strategies involving multiple statistical methods, to address modern problems in data science;
Integration of statistical tools and methods with other different disciplines to analyze and propose tools for decision making in complex problems.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
