Special Issue

Electric and Hybrid Vehicles in a Smart Grid Scenario

Message from the Guest Editor

Electric vehicles and renewable energy sources are expected to play a fundamental role in reducing huge amount of carbon emissions caused by both the transportation and power generation sectors. Based on full electric or hybrid drives, represent a very interesting opportunity to solve various problems concerning liquid fossil fuel dependence. Academia and the electric power systems industry are about to face technical and economic issues related to the massive integration of electric and plug-in hybrid electric vehicles in the electric grid, as electricity is becoming the preferred energy vector for the next new generation of road vehicles. Starting from a deep analysis of the above main issues, based on the status of the literature and ongoing research projects, this Special Issue presents a wide review of the new power technologies that allow the design of innovative transportation solutions towards sustainable transport.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
