

Special Issue

Insights on Venture Capital and Sustainable Development of Enterprise

Message from the Guest Editors

This Special Issue aims to collect a selection of papers on venture capital and sustainable development of enterprise. The sustainable development of enterprises refers to the fact that, in their process of operation, enterprises should not only consider the realization of their business objectives and improvement of their market position but also maintain continuous profit growth in the future to ensure the long-term prosperity of enterprises. The sustainable development of enterprises is affected by many factors. This Special issue mainly focuses on the impact of venture capital and public policy on the sustainable development of enterprises. Topics may include but are not limited to: Construction of indicators of sustainable development of enterprise
Venture capital and sustainable development of enterprise
Venture capital and enterprise innovation
Venture capital and enterprise competitiveness
Venture capital and enterprise production efficiency
Venture capital and green development
Venture capital in different enterprise lifecycles
Sustainable finance instruments (green bonds, green finance, social bonds, etc.)

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
