

## Special Issue

# Sustainability on Wastewater Treatment and Recycling

### Message from the Guest Editor

This Special Issue calls for manuscript submissions which evaluate technological, systemic, economic, and social aspects of novel options to restore the cycling of water, organic matter, and nutrients, while still maintaining environmental and hygienic safety. Topics include but are not limited to: User acceptance of new practices for wastewater management (e.g., urine separation, source separation), new technologies for decentralized or centralized resource recovery from wastewater, use of recovered nutrient products as fertilizer, sustainability assessment, and monetizing explicit and implicit effects of management options for improved recycling of resources.

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
