

## Special Issue

# Wastewater and Water Treatment Applications

### Message from the Guest Editors

Access to water and sanitation have been recognized by the United Nations as human rights. Moreover, Goal 6 of the Sustainable Development Goals involves ensuring the availability and sustainable management of water and sanitation for all. More efficient use and management of water and wastewater resources are critical to achieving this goal.

This Special Issue will publish high-quality policy research with relevance to water and wastewater treatment applications. Suitable topics include, but are not limited to, the following:

- Wastewater reuse
- Resource recovery
- Energy efficiency
- Use of renewable energy
- Sustainability
- Resilience
- Life cycle analysis
- Life cycle cost
