Special Issue

Wastewater and Water Treatment Applications

Message from the Guest Editors

Access to water and sanitation have been recognized by the United Nations as human rights. Moreover, Goal 6 of the Sustainable Development Goals involves ensuring the availability and sustainable management of water and sanitation for all. More efficient use and management of water and wastewater resources are critical to achieving this goal.

This Special Issue will publish high-quality policy research with relevance to water and wastewater treatment applications. Suitable topics include, but are not limited to, the following:

- Wastewater reuse
- Resource recovery
- Energy efficiency
- Use of renewable energy
- Sustainability
- Resilience
- Life cycle analysis
- Life cycle cost

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
