

## Special Issue

# Water Quantity and Quality under Future Climate and Societal Scenarios

### Message from the Guest Editors

This Special Issue welcomes contributions such as original research articles, technical articles or reviews, focused on different themes such as, but not limited to:

- Agriculture:
  - decreasing irrigation application without compromising production—water use efficiency;
  - fertilizers application optimization—water quality improvement;
  - crops adaptation in order to not compromising production—water use efficiency;
- Urban:
  - flood forecast—modelling tools to alert population;
  - inundation areas modelling—mitigation or adaptation measures;
- Land use:
  - decreasing erosion and soil lost—water quality improvement;
  - land use changes—water quantity and quality analyses; adaptation to climate change.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

---

### Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario  
Institute of Technology, Oshawa, ON L1G 0C5, Canada

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
