

Special Issue

Influence of COVID-19 Spread on the Water System

Message from the Guest Editors

The goal of this Special Issue is to collect studies on the impacts of COVID-19 spread and the analysis of possible implications in future management policies in the water sector. We welcome contributions dealing with (but not limited to) the following research areas:

- Water supply dynamics;
- Effects of COVID-19 spread on the water sector;
- Resilience of the water sector to health emergencies;
- Water drinking demand patterns;
- Safe management of wastewater;
- Future challenges to be faced in the water sector;
- Role of water after the end of the COVID-19 pandemic.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
