

## Special Issue

# Influence of COVID-19 Spread on the Water System

### Message from the Guest Editors

The goal of this Special Issue is to collect studies on the impacts of COVID-19 spread and the analysis of possible implications in future management policies in the water sector. We welcome contributions dealing with (but not limited to) the following research areas:

- Water supply dynamics;
- Effects of COVID-19 spread on the water sector;
- Resilience of the water sector to health emergencies;
- Water drinking demand patterns;
- Safe management of wastewater;
- Future challenges to be faced in the water sector;
- Role of water after the end of the COVID-19 pandemic.

---

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
