

Special Issue

Welfare Implications of Environmental Change and Policy

Message from the Guest Editors

This Special Issue will focus on examining how environmental changes influence the distribution of welfare in societies in countries beyond the OECD. This is particularly salient in our world today where local environmental conditions and policies have increasingly impactful welfare ramifications at home and abroad. Typically, the poorest and most vulnerable among us in developing countries are most affected by environmental changes and, consequently, have to bear the social consequences. Both environmental changes and welfare are broadly defined for this Special Issue. For further reading, please visit the [Special Issue website](#).

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
