

Topical Collection

Sustainable Wine and Beverage Tourism

Message from the Collection Editors

The goal of this Special Issue is to explore the concept of “sustainability” as it relates to wine tourism and the “pillars”—economic, sociocultural, and environmental—that constitute a sustainable wine tourism system. The interaction of the many elements of the system—from wine producers to wine tourists themselves—are critical to its sustainability, and the concept can be assessed at the level of the individual winery, the wine region, or nation as a whole. Papers acknowledging the current context of COVID-19 are of interest, although papers researched pre-, during or post-COVID-19 will also be considered for this Special Issue. We also welcome papers that consider sustainability issues in the context of other alcoholic beverages (e.g., beer, cider, whisky).

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
