

Special Issue

Women Entrepreneurs in the New Era: Trends and Challenges

Message from the Guest Editors

This Special Issue aims to offer a collection of theoretical, review, and empirical (qualitative or quantitative) papers covering the new frontiers of women's entrepreneurship. Topics of interest include (but are not limited to) the following:

- COVID-19: The COVID-19 crisis has tremendously impacted entrepreneurship worldwide.
- Sustainable business solutions: due to the economic, social, and political changes we have witnessed in the last months, sustainable entrepreneurship seems to be the key for the restart.
- The role of context: how a single country's specificities –i.e., normative, cultural, political, cultural, cognitive, and social–affect women's decision to start and grow a business, as well as their firms' survival and success.
- The intertwinement among innovation, gender, and entrepreneurship: at present, the vast majority of women-owned firms are still largely established in low-added-value and low-technology-based sectors. Therefore, research on innovation in women-owned firms still lags behind.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
