

Special Issue

The 33rd International Conference of The Jangjeon Mathematical Society (ICJMS2020) will be held at Hasanuddin University, Makassar, Indonesia

Message from the Guest Editor

We would like to announce that in 2020, the Journal *Symmetry* will publish an additional Special Issue for the 33rd Congress of the Jangjeon Mathematical Society (ICJMS2020), which will be held at Hasanuddin University, Makassar, Indonesia. The papers presented at this conference will be considered for publication in this Special Issue by the . We would like to invite all the authors to this conference and to contribute to this Special Issue by submitting their work to *Symmetry* on the following subjects: pure and computational and applied mathematics and statistics, and mathematical physics (related to p-adic analysis, umbral algebra, and their applications). (see:

About the Journal

Message from the Editor-in-Chief

Symmetry is ultimately the most important concept in natural sciences. It is not surprising then that very basic and fundamental research achievements are related to symmetry. For instance, the Nobel Prize in Physics 1979 (Glashow, Salam, Weinberg) was received for a unified symmetry description of electromagnetic and weak interactions, while the Nobel Prize in Physics 2008 (Nambu, Kobayashi, Maskawa) was received for the discovery of the mechanism of spontaneous breaking of symmetry, including CP symmetry. Our journal is named *Symmetry* and it manifests its fundamental role in nature.

Editor-in-Chief

Prof. Dr. Sergei Odintsov

1. ICREA, 08010 Barcelona, Spain

2. Institute of Space Sciences (IEEC-CSIC), C. Can Magrans s/n, 08193 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within SCIE (Web of Science), Scopus, CAPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Multidisciplinary Sciences) / CiteScore - Q1 (General Mathematics)
