

Special Issue

Selected Papers of International Conference on Mathematical and Statistical Sciences: A Selçuk Meeting (Dedicated to Victims of Türkiye Earthquakes)

Message from the Guest Editors

The Special Issue is dedicated to selected papers presented at the online conference Internatoinal E-Conference on Mathematical and Statistical Sciences: A selçuk Meetin, which is dedicated to victims of Türkiye earthquakes (<https://icomss23.selcuk.edu.tr/>). The conference has sessions on Algebra, Analysis, Applied Mathematics, Geometry and Topology. Hence, papers from this field related to symmetry can be submitted to this Special Issue.

Guest Editors

Dr. Tuncer Acar

About the Journal

Message from the Editor-in-Chief

Symmetry is ultimately the most important concept in natural sciences. It is not surprising then that very basic and fundamental research achievements are related to symmetry. For instance, the Nobel Prize in Physics 1979 (Glashow, Salam, Weinberg) was received for a unified symmetry description of electromagnetic and weak interactions, while the Nobel Prize in Physics 2008 (Nambu, Kobayashi, Maskawa) was received for the discovery of the mechanism of spontaneous breaking of symmetry, including CP symmetry. Our journal is named *Symmetry* and it manifests its fundamental role in nature.

Editor-in-Chief

Prof. Dr. Sergei Odintsov
