

Special Issue

Mathematics: Feature Papers 2025

Message from the Guest Editor

This Special Issue is devoted to collecting research works and reviews in all of the fields covered by Mathematics. We aim to receive papers highlighting the latest advances in pure mathematics and applied mathematics, as well as papers providing applications of mathematics in real-life processes; hence, we encourage both scientists in leadership positions and young researchers at the beginning of their careers to contribute. We hope that this Special Issue will provide a suitable platform with which to share new interdisciplinary ideas, to support emerging topics, and to disseminate consolidated theories, hence increasing the level of knowledge and understanding of mathematical research in the scientific community. Particular attention will be given to the refinement of the roles of symmetries and asymmetries.

Guest Editor

Dr. Calogero Vetro

About the Journal

Message from the Editor-in-Chief

Symmetry is ultimately the most important concept in natural sciences. It is not surprising then that very basic and fundamental research achievements are related to symmetry. For instance, the Nobel Prize in Physics 1979 (Glashow, Salam, Weinberg) was received for a unified symmetry description of electromagnetic and weak interactions, while the Nobel Prize in Physics 2008 (Nambu, Kobayashi, Maskawa) was received for the discovery of the mechanism of spontaneous breaking of symmetry, including CP symmetry. Our journal is named *Symmetry* and it manifests its fundamental role in nature.

Editor-in-Chief

Prof. Dr. Sergei Odintsov
ICREA, 08010 Barcelona and Institute of Space Sciences (IEEC-CSIC),
C. Can Magrans s/n, 08193 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within SCIE (Web of Science), Scopus, CAPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Multidisciplinary Sciences) / CiteScore - Q1
(General Mathematics)
