Special Issue

Selected Papers from "3rd International Conference: Constructive Mathematical Analysis"

Message from the Guest Editors

The main goal of this Special Issue is to publish high-quality research papers presented at the 3rd International Conference: Constructive Mathematical Analysis (ICCMA2025). The conference will be held in Konya, located in the Central Anatolia region of Türkiye, which is part of the Cappadocia region and very close to the Mediterranean coast. This Special Issue will consider papers on the following topics:

- Positive approximation processes and applications;
- Approximation by sampling type operators and applications;
- Nonlinear analysis, fixed point theory, and their applications;
- Fourier analysis and its applications;
- Any other topics analyzed at the conference.

Guest Editors

Prof. Dr. Tuncer Acar

Prof. Dr. Ioan Raşa

Prof. Dr. Donal O'Regan

Deadline for manuscript submissions

30 September 2025

About the Journal

Message from the Editor-in-Chief

Symmetry is ultimately the most important concept in natural sciences. It is not surprising then that very basic and fundamental research achievements are related to symmetry. For instance, the Nobel Prize in Physics 1979 (Glashow, Salam, Weinberg) was received for a unified symmetry description of electromagnetic and weak interactions, while the Nobel Prize in Physics 2008 (Nambu, Kobayashi, Maskawa) was received for the discovery of the mechanism of spontaneous breaking of symmetry, including CP symmetry. Our journal is named *Symmetry* and it manifests its fundamental role in nature.

Editor-in-Chief

Prof. Dr. Sergei Odintsov
