

Special Issue

Symmetry and Asymmetry in Communications Engineering

Message from the Guest Editors

This Special Issue invites researchers to submit original papers and review articles related, but not limited, to the following topics:

- Communication systems, and wired and wireless networks;
- Automation, artificial intelligence, and autonomous things;
- Internet of Things and Internet of Everything;
- Security and privacy in communication systems and networks;
- Quantum cryptography;
- Communication theory, modulation and coding;
- Signal processing;
- Video and image processing;
- Multimedia communications;
- Satellite and space communications;
- Antenna, propagation, and high frequency systems;
- Computer networks and applications;
- Electromagnetic compatibility;
- Simulation and measurement techniques in electronics and telecommunications;
- Vehicular electronics and applications;
- Natural language and speech processing;
- Electronic systems development and design;
- Agriculture, aquaculture, and Industry 4.0 applications;
- Optical communications and applications.

Guest Editors

Prof. Dr. Simona Halunga

Department of Telecommunications, University Politehnica of Bucharest, 060042 Bucharest, Romania

Prof. Dr. Octavian Fratu

About the Journal

Message from the Editor-in-Chief

Symmetry is ultimately the most important concept in natural sciences. It is not surprising then that very basic and fundamental research achievements are related to symmetry. For instance, the Nobel Prize in Physics 1979 (Glashow, Salam, Weinberg) was received for a unified symmetry description of electromagnetic and weak interactions, while the Nobel Prize in Physics 2008 (Nambu, Kobayashi, Maskawa) was received for the discovery of the mechanism of spontaneous breaking of symmetry, including CP symmetry. Our journal is named *Symmetry* and it manifests its fundamental role in nature.

Editor-in-Chief

Prof. Dr. Sergei Odintsov

1. ICREA, 08010 Barcelona, Spain

2. Institute of Space Sciences (IEEC-CSIC), C. Can Magrans s/n, 08193 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within SCIE (Web of Science), Scopus, CAPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Multidisciplinary Sciences) / CiteScore - Q1 (General Mathematics)
