

Special Issue

Symmetry in Engineering Sciences

Message from the Guest Editors

This Special Issue invites researchers to submit original research papers and review articles related to any engineering discipline in which theoretical or practical issues of symmetry are considered. The topics of interest include (but are not limited to):

- Symmetry in electrical engineering (power, electronics, electromechanics, computer, control, microwaves, telecommunications, etc.);
- Symmetry in mechanical engineering (acoustical, aerospace, automotive, marine, railway, thermal, etc.);
- Symmetry in civil engineering (architectural, construction, earthquake, environmental, hydraulic, mining, structural, transportation, etc.);
- Symmetry in chemical engineering (biochemical, molecular, processes, thermodynamics, etc.);
- Symmetry in other interdisciplinary engineering disciplines (agricultural, biomedical, graphical modelling, industrial, information, materials, metallurgy, military, nanotechnology, control, automation, robotics, etc.);
- Symmetry and topology of complex networks in engineering;
- Symmetry and optimization in engineering applications.

Guest Editors

Dr. Raúl Baños Navarro

Department of Engineering, Electrical Engineering section, University of Almería, E-04120 Almería, Spain

Prof. Dr. Francisco G. Montoya

Department of Engineering, Electrical Engineering Section, University of Almería, 04120 Almería, Spain

Deadline for manuscript submissions

closed (30 June 2022)

About the Journal

Message from the Editor-in-Chief

Symmetry is ultimately the most important concept in natural sciences. It is not surprising then that very basic and fundamental research achievements are related to symmetry. For instance, the Nobel Prize in Physics 1979 (Glashow, Salam, Weinberg) was received for a unified symmetry description of electromagnetic and weak interactions, while the Nobel Prize in Physics 2008 (Nambu, Kobayashi, Maskawa) was received for the discovery of the mechanism of spontaneous breaking of symmetry, including CP symmetry. Our journal is named *Symmetry* and it manifests its fundamental role in nature.

Editor-in-Chief

Prof. Dr. Sergei Odintsov

1. ICREA, 08010 Barcelona, Spain

2. Institute of Space Sciences (IEEC-CSIC), C. Can Magrans s/n, 08193 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within SCIE (Web of Science), Scopus, CAPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Multidisciplinary Sciences) / CiteScore - Q1 (General Mathematics)
